“ Ultra-durable wet wipe with
a broad-spectrum of activity ”

UMONIUM³⁸ MASTER FOOD TISSUES wipes have been specifically developed for cleaning and disinfecting surfaces in contact with food products. Active within 5 seconds of contact, full spectrum, safe and easy to use, they offer a real alternative to the chemical products generally used. Ultra-resistant and moist, each wipe can treat an area of more than 3m², and does not dry out in the box even after opening. They effectively remove fatty, protein-based residues and biofilm without leaving a residue after rinsing. Particularly recommended for fighting *Salmonella typhimurium*.

UMONIUM³⁸ MASTER FOOD TISSUES is a biocidal product. Use biocides safely. Read the label and product information before use.

* Carcinogenic, Mutagenic or Reprotoxic
